                                                                                                                                                                                                                                                                                              Sequence 1, Application US/09129112

Patent No. 6465716

Patent No. 6465710:

APPLICANT: Etzler, Marilynn E.

APPLICANT: Murphy, Judith B.

APPLICANT: The Regents of the University of California

TITLE OF INVENTION: A No. 6465716 Factor Binding Protein From Legume Roots

FILE REFRENCE: 025070-079810US

FILE REPRENCE: 192070-079810US

CURRENT APPLICATION NUMBER: US/09/129,112

CURRENT FILING DATE: 1998-08-08

PRIOR PILING DATE: 1997-08-06

NUMBER OF SEQ ID NOS: 19

SOFTWARE: PATENTIN OF SEQ ID NOS: 19
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             188
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 248
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           368
